

1. Include the following scripts inside html header

```
<script src="https://smartsignals2.smart-digital-solutions.de/dist/smasi2overlayContent.js"></script>
<script src="https://smartsignals2.smart-digital-solutions.de/dist/smasi2EngineChannel.js"></script>
```

2. Close functionality will be enabled inside our system. Please include the code below **onclick** of **Close** button -

```
if (typeof smartOverlay != 'undefined') {
    smartOverlay.close();
}
```

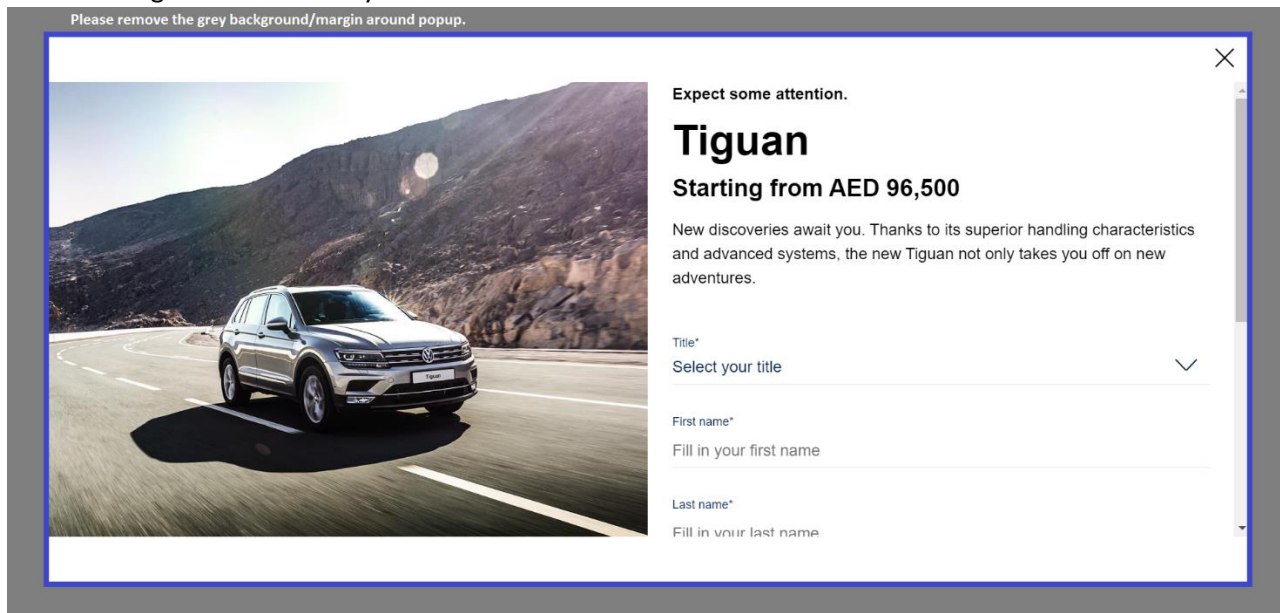

3. Call the code below **onclick** of **Submit** button (after form validation) -

```
if (typeof smartOverlay != 'undefined') {
    smartOverlay.trigger({action: 'Redirect'})
}
```

4. Include the following leadInformation function on successful form submission

```
(window.smartSignals2 = window.smartSignals2 || []).push({
    event: "FormSubmissionContactRequest",
    payload: {
        leadInformation: {
            version: "1.0",
            leadType: "3", //For ContactRequest - 3 or TestDrive - 1 or Offer Request - 2
            formName: "ContactRequestForm",
            productName: "MODEL_NAME" //ModelName should be filled
        }
    }
});
```

- Please remove the margin or grey background around lightbox. The margin & background will be configured inside our system.

Example –
Inside css stylesheet

| FROM | TO |
|-------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| <pre>#popup { position: fixed; top: 26px; left: 50%; transform: translate(-50%); width: 94%; max-width: 1360px; }</pre> | <pre>#popup { position: fixed; top: 0px; left: 0px; max-width: 1360px; min-height: 550px; }</pre> |

- html body should mandatorily define lightbox size -

Example –
Inside css stylesheet

| |
|------------------------------------------------------------------------------|
| <pre>body { margin: 0px; max-width: 1360px; min-height: 550px; }</pre> |
|------------------------------------------------------------------------------|
