

The most powerful Audi yet arrives in the Middle East: Welcome to the new, fully-electric Audi e-tron GT

- Select dealers in the Middle East have received the electric flagship supercar from the brand with the Four Rings
- A new era of Gran Turismo: The e-tron GT hits the mark with a perfect balance between sportiness, comfort and sustainability
- Electrifying acceleration of 0-100 km/h in 3.3 seconds for the RS e-tron GT and fast-charging up to 270 kW capacity across the e-tron GT portfolio

UAE, September 28, 2021: The all-new Audi e-tron GT quattro and RS e-tron GT are now available from dealers in select markets across the Middle East. Primed for the road ahead, the electric Gran Turismos are the embodiment of Audi's vision for the future of mobility and serve as halo models for Audi's ever-growing electric portfolio.

Progress, craftsmanship, and a passion for high performance come together in the Audi e-tron GT quattro and its RS counterpart, with both models featuring exhilarating launch control, boosting the cars' ability to deliver up to 530 Hp on the e-tron GT quattro, and 646 Hp on the RS, putting extraordinary power at the driver's fingertips.

In both models, the interior features an elegant instrument panel with driver orientation and "monoposto character" taken straight out of the R8 supercar, giving the driver a feeling of open, yet controlled space within the cockpit. Drivers have a low seating position and wide centre console.

The chassis includes features such as adaptive three-chamber air suspension and an electronic differential lock on the rear axle. Matrix LED headlights with Audi laser light come as standard in the RS version while a number of options are available, including up to 21-inch wheels and all-wheel steering.

And since the dynamic work of art must also sound good, Audi has composed a unique soundtrack for the e-tron GT- one that is powerful and progressive, emanating from speakers integrated within the vehicle's architecture, and changing as its driving behavior changes. Another automotive first – just as expected from the brand with the four rings.

The e-tron GT quattro has a range of up to 488 kilometres, while the RS e-tron GT has a range of up to 472 kilometres (in accordance with the WLTP). This is made possible by the battery which has a net capacity of 83.7 kWh. The e-tron GT only needs 22.5 minutes on a high-power charging (HPC) column for a typical charge of 5% to 80%. This makes the e-tron GT efficiently sporty, and offers a 100 km range on a five minute charge.

Carsten Bender, Managing Director, Audi Middle East commented: "The introduction of the Audi e-tron GT quattro and RS e-tron GT marks an exciting time for the brand in the Middle East, which is one of the first global markets to make this model available for our customers. With these models, we have introduced an Audi unlike any other – it is a stand-alone Gran Turismo, reinterpreted for the future. Its powerful electric motors provide dynamic driving performance and confident electric all-wheel drive. Its

beautiful lines, expressive design and impeccable curves define a model that is dynamic, but also luxurious. We have a four-door coupé whose design is as exhilarating as its futuristic technology.”

With the launch of the e-tron GT, Audi is continuing its transformation into a leader of sustainable premium mobility. In 2020, the brand with the four rings was by far the largest manufacturer of electric vehicles among Germany’s three premium brands.

To coincide with the e-tron GT’s arrival in the Middle East, Audi is also investing in several initiatives focusing on the development of a high performance charging infrastructure in order to contribute to EV readiness in the region.

The Audi e-tron GT quattro and RS e-tron GT are now available to view and test drive at local dealers in Dubai, Abu Dhabi and Qatar. The new model will become available across further markets over the next 12 months.

Customers who wish to explore virtually, configure online, view tailor made content or explore the Google map style range indicator, can visit www.audi-me.com or their local dealer to explore and find out more.

About Audi

The Audi Group, with its brands Audi, Ducati and Lamborghini, is one of the most successful manufacturers of automobiles and motorcycles in the premium segment. It is present in more than 100 markets worldwide and produces at 17 locations in 11 countries. 100 percent subsidiaries of AUDI AG include Audi Sport GmbH (Neckarsulm, Germany), Automobili Lamborghini S.p.A. (Sant’Agata Bolognese, Italy) and Ducati Motor Holding S.p.A. (Bologna, Italy).

In 2020, the Audi Group delivered to customers about 1.693 million automobiles of the Audi brand, 7,430 sports cars of the Lamborghini brand and 48,042 motorcycles of the Ducati brand. In the 2019 fiscal year, AUDI AG achieved total revenue of € 55.7 billion and an operating profit of € 4.5 billion. At present, about 87,000 people work for the company all over the world, 60,000 of them in Germany. With new models, innovative mobility offerings and other attractive services, Audi is becoming a provider of sustainable, individual premium mobility.

AUDI AG’s commitment to the region was established through the foundation of its fully owned subsidiary in 2005. The current Middle East model range comprises the Audi A3, S3 and S3 Sportback, A4 and S4, the A5/S5 Coupe and Sportback, RS5 Sportback, the A6, S6, RS6 Avant, A7, S7, RS7, A8, A8 L and S8, the Audi Q3, Q3 Sportback, RS Q3 Sportback, Q5 & SQ5, Q7, Q8, RS Q8, R8, e-tron, e-tron Sportback and RS e-tron GT.
